

5th International Conference

CRITICAL EDGE ALLIANCE

Acting in Higher Education
in response to
Climate Change

15th,
16th &
17th June
2022

Hosted by
Université Paris 8
Vincennes - Saint-Denis

The conference will offer an opportunity to rethink the impact of climate change and its implications, in order to prepare for the upcoming global challenges.

How sustainable are our campuses? How can the humanities, the social sciences and the arts contribute to the fight against *climate change*?

These are some of the questions that the conference is aiming to address from different angles: surroundings and local communities, inclusion, international exchanges, management, training, research and innovative technologies.

CEA Inauguration

Wednesday 15th / mercredi 15
Auditorium

15:00 - 15:15

Podcast presentation: Global Voices
by **CEA Students' Representatives**

15:15 - 16:30
